**In just 12 weeks (self-paced)**  
**Go from someone who wishes they could create**  
**web based information to someone who can.**

- Create web pages using the most current markup - Extensible HyperText Markup Language (XHTML) and Cascading Style Sheets (CSS)
- You'll know how to create web pages that unleash the power of industry standards.
- Chapters and Lab work lead to a project of your choice.
- **Prerequisite:** Student should have basic computer skills (entering data, copy/paste, saving files, etc.). **Web design experience is not necessary.**

**Course outline at:** [www.sjrlc.org/joyofcode/outline](http://www.sjrlc.org/joyofcode/outline) see also, [www.joyofcode.com/about.html](http://www.joyofcode.com/about.html)

**- Lisa Cohn, Librarian, Interlibrary Loan & Webmaster, Bloomfield Public Library says...**

**Joy of Code was truly a joy.** Bud's writing style is clear, simple, and humorous. I've read many books on web design topics and I've taken the classes. This is the first one that made sense. I found myself saying, "Oh! I get it!" Bud's humorous style makes the learning fun. If you have a choice of courses, take this one, you won't be disappointed.
