

## Gloucester County Library MailLit: Customer Comments

### Gloucester County Library Customers say...

---

- This is a great service, especially when you put many books on hold.
- Best thing that could have happened. Love the convenience of it.
- This is really an excellent service. Thanks.
- I love MailLit – hope you can expand it to ILLs. Thank you!!
- This is a great service. With the gas prices so high, this service cuts out one car trip without any additional expense. If we were absolutely unable to get out, we could mail them back with very little expense. Thank you for providing the service.
- The service is great! I love it and recommend to everyone! Thank you.
- This program, MailLit, is simply wonderful. Thanks for bringing it to the library system of Gloucester County.
- I really like the MailLit service. It is very convenient.
- I love this service. Finally a good idea, executed right. I have always enjoyed the benefits of using the library, but I didn't realize that I had personally put limitations on how much I used the library until this program. It is not always possible to get to the library due to work, hours, schedules, etc. Now I order what I want and it comes in the mail (it's like Christmas!). This is great! I no longer have to stretch out a book that I'm reading because I can't get back to the library right away and will have nothing to read. The program has given me time to try new authors and subjects. The gas and time I save alone makes this program worthwhile.
- Love it!! Very convenient. I have read many more books because of this service!
- This is the best thing! It is one less errand I have to run and it makes me read more. My kids are also reading more! Thanks!!
