The first step to writing a successful grant application is having a very clear idea for what it is you want to accomplish.
Then the work begins...

This workshop will address:

Research sources for grants	Plan the project	Project the costs
Determine clear Purpose/Goals	Use a Boilerplates	Budget (padding, stats, projections)
Cost share vs. matching monies	Budget/time overruns	Work Plan/Time Frame
Reporting	Deadlines and emergencies	If you don't succeed

All of these elements will be explained during the workshop to prepare you for **the entire grant cycle** should you be successful in receiving a grant.
