Wikis are everywhere, but what are they, and how can you use them at your library?

This class will teach you how to identify a wiki when you see one and how to use wikis effectively at your library.

After this class, students will be able to:

- Create, edit, and share wiki pages with their colleagues & library users
- Advocate for using wikis at their library -- for both internal & external use
- Identify ways to use wikis to improve communications among library staff and between the library and its customers.

--- Earn 3 PROFESSIONAL DEVELOPMENT HOURS for attending this program. ---

This program is made possible, in part, by special funding from the New Jersey State Library, an Affiliate of Thomas Edison State College.
