The Corner at Voorhees Branch to Open in Mid-November

New Teen Space will feature animation software, multimedia center and more

A project that started with a successful grant application to the [South Jersey Regional Library Cooperative](#) back in January will provide a specially designed space just for teens and teen activities - The Corner.

Construction on The Corner started in October when we hired a general contractor to turn the innovative plan into a reality. The project involves the renovation of a 1,245 square-foot space located - you guessed it - in the back corner on the first floor of our [M. Allan Vogelson Regional Branch Library](#) in Voorhees.

Among the features designed to attract young people to this new space is a stage area where poetry slams, musical performances or displays of student artwork can take place. It will also have a multimedia center with 52", high definition, flat panel screen and gaming equipment. A graffiti wall is built into the space's design that fits its "urban" feel and name - The Corner.

The Corner will include some diner-style booths and more casual seating such as beanbags, floor rockers and wedges that many teens tend to like along with display racks and shelving for teen oriented books, graphic novels and magazines.

Maybe one of the most appealing features to teens visiting The Corner will be access to Ready Animator - a software product used for the creation of short movies and cartoons. Six computers with high speed Internet access will also be available. All of this will be housed in an area clearly defined and reserved for teens and teen activities.

The [M. Allan Vogelson Branch](#) has a very active youth services department that provided over 90 teen programs in 2008 ranging from a murder mystery party, a hip-hop dance presentation, special book clubs, anime clubs and gaming clubs all geared toward teens.

The Teen Space Project is made possible with funding from the [Camden County Library System](#), the [South Jersey Regional Library Cooperative](#) and the [New Jersey State Library](#), which is responsible for the coordination, promotion and funding of the [New Jersey Library Network](#).
